

Olympia Forum III - October, 20-22, 2022

This year's Olympia Forum's topics are focused on the **17 Sustainable Development Goals** set by the **United Nations** and to be achieved by year 2030.

These goals cover the full range of Regional Development Policy by approaching environmental, economic, social and cultural policies and actions and are the core policies and actions of the European Union Regional Policy, as implemented in the Member States as well as in Greece.

As the 2030 deadline approaches, frequent and accurate monitoring of the implementation of the "Agenda 30" and its 17 goals is required. And above all, action and the promotion of good practices are required.

This year's **Olympia Forum** will highlight the good practices of countries and municipalities that aim to implement these 17 goals (i.e. fight poverty, cheap and clean energy, climate action, etc.).

The sum of all these good practices is what will bring the final result - the overall Sustainable Regional Development.

Topics:

- New data in Europe's Regional Policy
- Recovery Fund: Opportunities for the Region
- New financing tools for the Region
- International Cooperation on Sustainable Development
- Promoting European Territorial Cooperation Policies
- The Regional cities of Europe in the new reality
- Circular Economy, Sustainable Development Climate Change and Environmental Impacts
